

Forests for Friends AG  
Wiesenstrasse 11  
CH-8910 Affoltern a/A

31st July, 2006

German version on the back

This letter is meant for those tree partners of Prime Forestry Switzerland AG, who have not yet responded to our previous letters and our offer.

## Rescue Plan

Dear tree partner

In June and July we informed you of Forests for Friends Ltd's rescue plan. This plan has the aim to rescue the teak plantations of Prime Forestry Panama S.A. and to save your investment as a tree partner of the bankrupt Prime Forestry Switzerland AG from a total loss. We have committed ourselves to make all tree partners a fair offer to participate in the rescue company.

Not all tree partners have yet responded. If this applies to you, we cannot approach you directly, as your personal data are subject to the bank secret. This letter is therefore being sent to you through the liquidators.

Forests for Friends Ltd. is well under way. Over 2,400 of the almost 3,000 tree partners have answered our letters and thereof over 95 % will participate in the share capital increase. You can find further information on our website [www.forestsforfriends.com](http://www.forestsforfriends.com).

In the coming weeks we will be able to submit a binding offer to those tree partners who have declared their interest. If you have not yet responded but wish to participate in this rescue plan, please contact us directly in the next few days. This is the last opportunity. Afterwards your only option is to register your claim in the bankruptcy proceedings of Prime Forestry Switzerland AG. In this case, we assure you that you will not receive any further mailings from us.

We are looking forward to your answer.

Best regards

Dr. Carol Franklin  
Chairman of the Board
